Coding.

RAID BOULAHIDID

FRONT-END DEVELOPER

EDUCATION

University of " Abdelhamid Mehri - Constantine 2"
2018 - Present
Second year undergraduate Computer Science.

WORK EXPERIENCE

Freelancer Web Developer
2020 - Present

. I started by making some project for friends to gain some experience.
And now I'm trying to dive further into freelancing world as a web developer.

. I can create beautiful and responsive templates for websites. My work is totally clean and I can deliver it on the exact time.

. My biggest website I ever developed till now is "elite21" which I developed it for a medical association called "Elite".
. You can find it's link in my website in the projects page if you want to visit it (this website is getting new features every time, and soon I'm going to add "teleconsultation" feature which allows to add different medicine specialties(dentists, pharmacies, surgeons ..., from all cities of Algeria so you can contact theme and ask them).
